JETS 20 NA 3HP
INT 3HP SF

The Wellness III is a hot tub addition to your Wellness II or Wellness II Lounge Swim Spa. The Wellness III is installed at one end of your swim spa, instantly providing all of the amazing health benefits that go along with hot water hydrotherapy. Every Wellness III hot tub comes standard with commercial-grade Hydro Cyclonic Filtration® and powerful Luxury Trillium Massage Jets.

The Wellness III is the perfect alternative to an all-in-one or dual zone swim spa as it can be separated and moved independently from the Wellness II Swim Spa. The Wellness III has independent controls so that the water can be set at a higher temperature than the attached swim spa for more effective hydrotherapy. The Wellness III also has an independent plumbing system and cover allowing the attached swim spa to be drained and winterized if the intended use is seasonal.

The unique shape, compact design and detachment option of the Wellness III makes it especially desirable in situations where installation is not easily accessible or if you intend on not leaving your unit behind if you move residence in the future.

Hydro Cyclonic Filtration

Commercial-grade pressurized filtration is 83% faster and 20% more efficient than standard skim filtration.

Luxury Trillium Jets

Powerful and stylish. Luxury Trillium Jets thread into the spa have a beautiful stainless steel ring design.

Attaches Perfectly

The Wellness III is built specifically to add an independent hot tub to your Wellness II Swim Spa.

Independent Controls

Hot tub with controls, pumps, heater, power and water all separate from your Wellness II Swim Spa.

The Wellness III is built specifically to add a Hot Tub to your Wellness II or Wellness II Lounge Swim Spa
